Sumy, Ukraine · (willing to relocate)

Professional profile

Full-Stack Engineer with 3.5 years of Product UX/UI Design experience. I build web products end-to-end, combining product thinking with frontend, backend, database, and deployment experience.

Stack

LANGUAGES

TypeScript · JavaScript · HTML · CSS

FRONTEND

React · Next.js · Tailwind CSS · TanStack Query

BACKEND

Node.js · Express · REST APIs · Server Actions

DATABASE

MySQL · PostgreSQL · Prisma

AUTH & STORAGE

Clerk · Google OAuth · AWS S3

TOOLS & INFRASTRUCTURE

Git · GitHub · Vercel · Railway · Docker · Figma

Selected engineering projects

YealBreathe - Full-Stack Web Application

Full-Stack Web Application, Mobile-friendly · Next.js · TypeScript · PostgreSQL

- Built a full-stack breathing and reflection platform with authentication, user profiles, posts, comments, likes, and notifications.
- Designed the relational data model with PostgreSQL and Prisma, including users, posts, comments, follows, and notifications.
- Implemented secure media uploads using AWS S3 presigned URLs.
- Built server-side and client-side data flows with Next.js, REST APIs, and TanStack Query.
- Deployed the frontend and production infrastructure using Vercel and Railway.

Professional experience

Ex Co-founder, Product Designer

Ain Finance Swap · Ukraine · Startup

Dec 2024 - Nov 2025

Key responsibilities

- Led product strategy, roadmap and pivoted platform from Ainexa Agent to cross-chain swap service utilizing Near intents technology
- Conducted competitive analysis and user research identifying critical pain points in multi-chain transactions
- Designed end-to-end UX/UI for web, mobile, and tablet including intelligent wallet pre-selection and unified multi-chain wallet selector

Ex Co-founder, Product Designer

Ainexa Agent · Ukraine · Startup

Mar - Sep 2025

Key responsibilities

- Led product strategy for AI-powered multichain crypto agent platform, positioning as accessible "ChatGPT for crypto operations"
- Designed conversational AI interface with dual-mode system (beginner/professional) and transaction-through-chat functionality
- Created unified wallet system with pre-generated wallets across Bitcoin, Solana, Sui, Aptos, Near, XRP, and EVM chains
- Developed autonomous trading strategies (sentiment analysis, ML trend detection, DCA) and 24/7 task automation engine

UX/UI, SMM Designer

Newmoney AI · United States · Contract

Apr 2024 - Aug 2025

Key responsibilities

- Led UX/UI and brand identity design for unified Web2/Web3 financial platform integrating cash, crypto, NFTs, and AI automation
- Designed Newton AI Assistant with conversational interface transforming complex crypto operations into natural language interactions.
- Developed Agent Store with DCA automation, integrated market intelligence sidebar, and gamified rewards system with leaderboards
- Designed adaptive security framework offering passkeys, 2FA, and PIN options for personalized protection levels

UX/UI, Graphic Designer

Kauz AI · Germany · Contract

May 2023 - Jun 2024

Key responsibilities

- Led comprehensive UX/UI redesign of aiStudio platform enabling self-service AI assistant creation for startups and enterprises

- Conducted competitor analysis, user interviews, and UX audit to identify usability issues and user pain points
- Designed complete interface combining generative AI with NLU technology for simplified AI assistant management
- Developed comprehensive design system including reusable UI components, typography, color palette, and spacing guidelines
- Created streamlined chatbot creation flow reducing completion time and cognitive load through improved visual hierarchy

UX/UI, Web Designer

Wodcat · Ukraine · Startup

Dec 2022 - Mar 2023

Key responsibilities

- Led UX/UI redesign of key platform pages for CrossFit workout tracking and analysis application
- Designed and developed 3 conversion-focused landing pages showcasing workout database, analytics dashboard, and training calendar features

I like building things that have a reason to exist.

And I'm still figuring out exactly what I'll build next. 🧡
